CDP Server Interface Guide

CDP Server Interface Guide

READ ME FIRST

Welcome to the R1Soft - CDP Server Admin Guide

The purpose of this manual is to provide you with . The Guide relates to both Windows and Linux CDP Servers.

To find a specific topic in a particular section, click on the topic name in the Table of Contents which is located on the left of every page. This TOC reflects a physical (tree) structure of pages in the "R1Soft Documentation" space. Note that the plus sign before the topic name means that the topic contains subpages. To access the subpages, click on the plus sign thereby expanding the topic structure.

You can also use the Guide's TOC located on the Guide's parent page. This Table of Contents provides a logical instead of a physical structure of guides. The links may point to separate pages and to sections within the pages.

You can do a site search to quickly find what you are looking for. Confluence will search all content, including attachments. To do a quick search, type your keyword into the search box, located in the menu bar at top of every screen and then press <Enter>.
