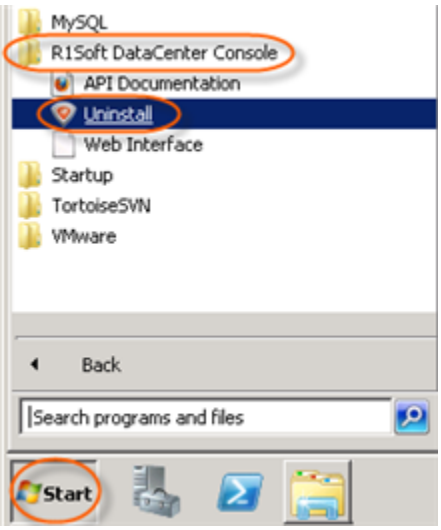
Uninstalling Data Center Console on Windows

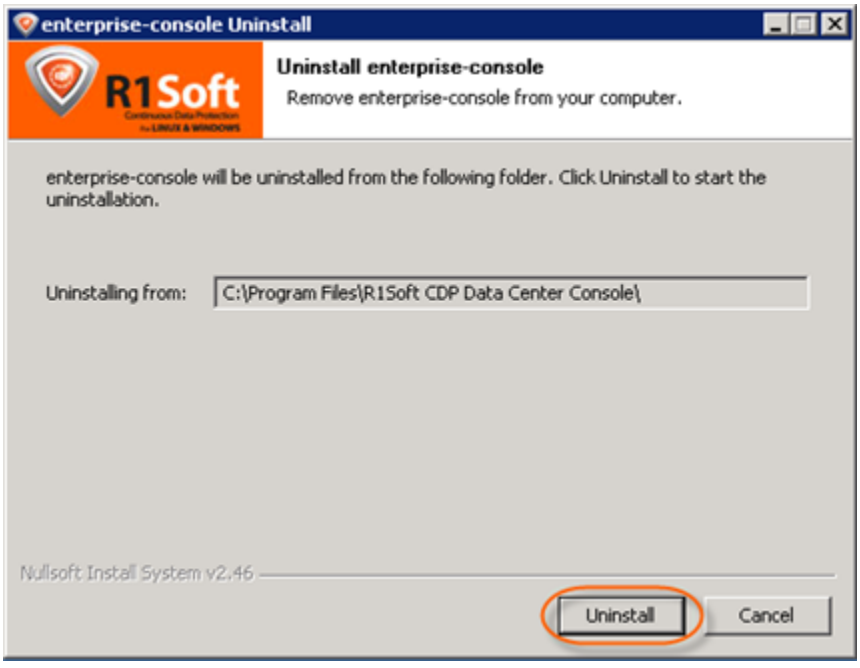
Follow the below instructions to remove Data Center Console from your computer.

1. Locate the shortcut to the uninstaller program in the Windows Start menu.

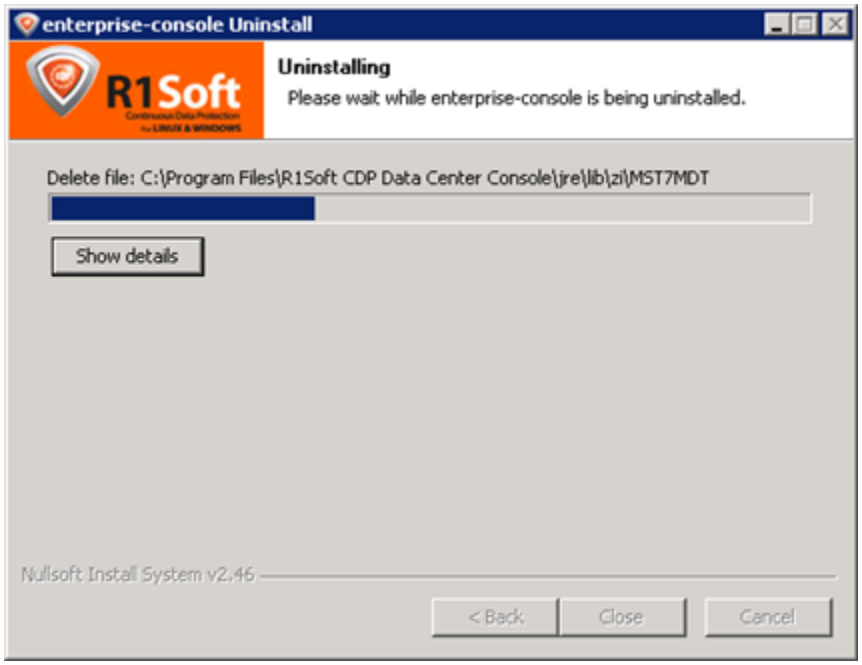
The full path to the shortcut is Start › (All) Programs › R1Soft Data Center Console › Uninstall.



2. The program displays the path to Console. The uninstallation will be performed from there. Click "Uninstall" to proceed.



3. Wait for the process to finish. It may take a few minutes.



4. Once the process is complete, click "Close." You do not need to restart your computer.
