

Obtaining PXE Network Boot Agent

Follow the instructions below to download the appropriate software to perform a Bare-Metal Restore.

To download the PXE Network Boot Agent, perform the following steps:

1. The PXE Network Boot Agent can be obtained via direct download from the R1Soft website at <http://download.r1soft.com>.

The screenshot shows the R1Soft website header with the logo and navigation menu. The navigation menu includes: Home, Products, Support, Downloads, Buy, R1HPP, Contact, Company, Forum, Customer Login, and Shopping Cart. A banner below the menu states "Registration is required for all downloads." The main content area is divided into two sections: "Download Trial" on the left and "R1Soft Customer Portal" on the right. The "Download Trial" section includes instructions for getting a free trial license and two buttons: "Free Trial for Linux" and "Free Trial for Windows". The "R1Soft Customer Portal" section features a "Registered Users Login" form with fields for "User Name" and "Password", a "Login" button, and a "(Forgot Password)" link.

2. Log in to the server by entering your "User Name" and "Password" in the form on the right-hand side of the screen. Registration is required for all downloads.

The screenshot shows the "R1Soft Customer Portal" login form. The form is titled "Registered Users Login" and includes the following elements:

- A link: "New Users Register Here"
- Labels for "User Name" and "Password" on the left side of the form.
- Two input fields for "User Name" and "Password" in the center, both highlighted with orange ovals.
- A "Login" button on the right side, also highlighted with an orange oval.
- A "(Forgot Password)" link at the bottom of the form.

**Note**

Existing customers can use their R1Soft Customer Portal Login. The forum and tech support help desks have different logins.

New customers can register and download the trial solutions at

<http://download.r1soft.com> by clicking the "Free Trial for Linux" or "Free Trial for Windows" link. New customers can request a quote here:

<http://www.r1soft.com/index.php?id=360>.

3. Click the "Download CDP Products" button to sort the list of products.

4. Click the "Stable" link corresponding to "PXE Network Boot Agent" in the "Disaster Recovery Boot Media" section.

5. When the "Stable Release Downloads" page has loaded, you will see a three-column "Live CD Downloads" table containing the following information:

- Version - The version of the latest Live CD Downloads
- Date - Release date
- Download - The link to download the Image you want to use to perform a Bare-Metal Restore

**Note**

You can view the release notes here: [Release Notes](#).

Stable Release Downloads		
Live CD Downloads
