

Support for Emergency Issues

Support for Emergency Issues

Question

How can I contact R1Soft Server Backup Support regarding an emergency issue?

System Down Emergencies

1. Please create a case in the Customer Support Portal at <http://support.r1soft.com>.
2. Set the case priority accordingly to ensure the quickest response from our team.
 - System Down Emergency = The product will not run, none of its features can be utilized OR A critical restore is unsuccessful, but the hardware/software is properly configured and the user has previously had success with the same type of restore in the past.

Technical Support is available 24 hours a day, 7 days per week via the Customer Support Portal <http://support.r1soft.com>. Response times are based on the priority of the issue reported.

Live Chat Tech Support (<http://www.r1soft.com>) is available from 8AM - 6PM CST/CDT (GMT-6) Monday - Friday.
