#### Tip

To find a Recovery Point, you can use the Basic and Advanced List Filters. See [Customizing the Recovery Points List](#).

5. "The Browse Recovery Point" window will open.

6. Using the CDP Server Web Interface, browse the files and folders contained in the Recovery Point.

The built-in file browser functions like the Windows Explorer.

- To enter to a folder, double-click it.

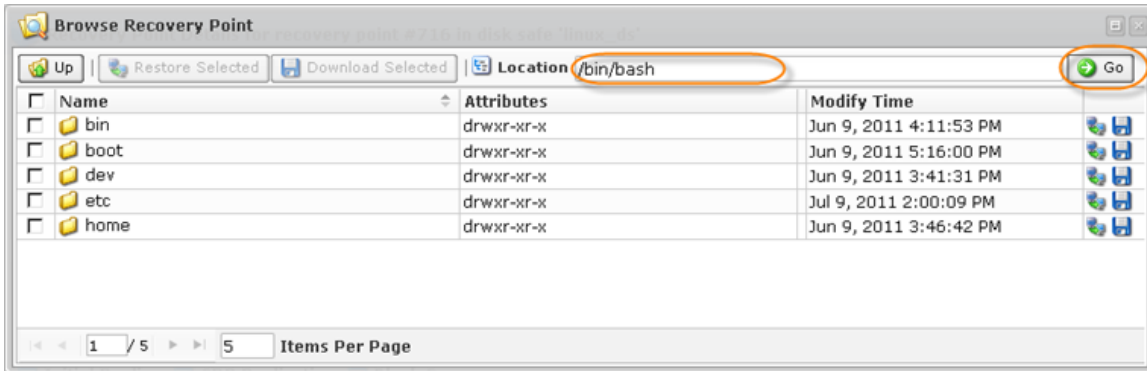

**Note**  
Make sure you double-click the folder name (text) or icon to enter to the folder. If you double-click the cell background, nothing happens.

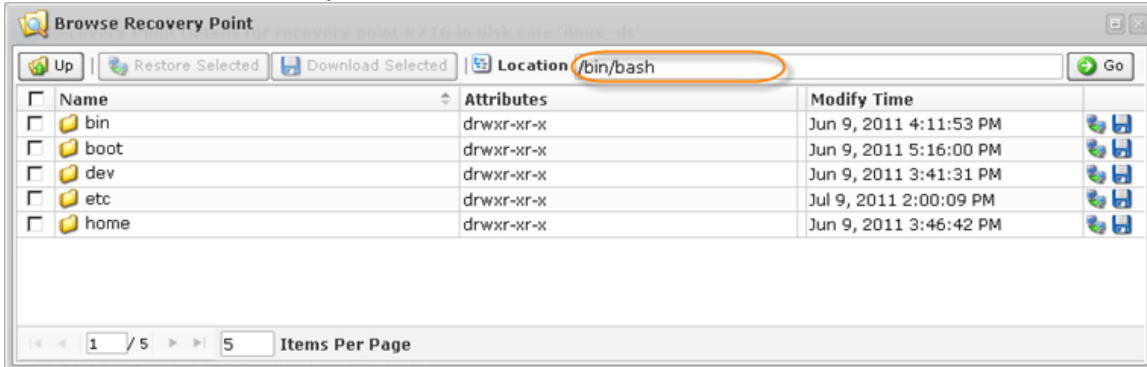

- To go to the parent folder, click on "Up."

- To go to the desired folder, manually type the path into the address bar and click "Go."

- To find out the current path, see the address bar.

- To change the number of items per page, type a value in the appropriate field. Currently, the maximum number of items per page is 25.

- To navigate by pages, click on the arrow icons or type a page number into the appropriate field.
