## Excluding Hyper-V Virtual Machines in CDP Policy

Follow the instructions below to exclude Hyper-V Virtual machines by excluding the VHD files in CDP Policy.

## Note

By default, all file(s)/folder(s) located on a Device are replicated.

1. Access the "Create New Policy" or "Edit Policy" window. See Creating Policies and Editing Policies.

2. Select the "File Excludes" tab.

Create New Policy			
Policy Settings	File Excludes 🕜 Advanced Excludes 👔 Databases		
i Identification			
😔 Enabled	<b>N</b>		
🗊 Name	Backup Hyper-V Win7 only		
<ol> <li>Description</li> </ol>	leave WinXP not backed up		
Disk Safe			
🚽 Agent	Big HyperV 👻		
🕼 Disk Safe	Big HyperV safe		
Frequency			
🛐 Frequency Type	On Demand 👻		
🔒 Recovery Point Reten	ition		
🝞 Recovery Point Limit	4		
Advanced Policy Sett	ings		
	fter saving		

3. Using the CDP Server Web Interface, browse the files and folders on the Agent's hard disk.

4. Select checkboxes next to the files and folders you want to exclude from the replication.

## 🖯 Tip

You can add rules to exclude files by pattern. For example, \*.vhd. See Advanced Excludes in Excluding Files and Folders.

Create New Policy				
Policy Settings  File Excludes  Advanced Excludes  Databases				
🔁 Location G:\!VirtualMachines				
Path	Size Ac	ccess Time	Modify Time	
📄 🥥 Win 7 HyperV	Ma	ar 9, 2011 5:31:26 PM	Mar 9, 2011 5:31:26 PM	
🔽 🥥 XP	Ma	ar 9, 2011 6:56:02 PM	Mar 9, 2011 6:56:02 PM	
VindowsXP.vhd	1.5 C Ma	ar 2, 2011 7:47:42 PM	Mar 9, 2011 7:23:06 PM	

5. Click on "Save" or "Create" at the bottom of the window.

The selected files and folders will be ignored by the Policy. Files and folders that are not selected will be considered by the Policy.

Read more in Excluding Files and Folders.
