

Solved Issue with CDP Server Not Starting After Upgrade

Symptom

The issue happens when upgrading from Version 3.18 to 4.0 on Debian or Ubuntu (on Debian-based distros).

Steps:

Upgrade CDP Server using the following command:

```
apt-get install rlsoft-cdp-enterprise-server
```

or

```
apt-get upgrade
```

Resolution

The issue has been corrected in CDP 4.2.0. After an upgrade, the CDP Server starts without problems.
