

Configuring User Options

Follow the instructions below to change your Username or Password in CDP Standard Edition.

1. Click on "Configuration" in the Main Menu to open the "Configuration" window.

2. In the "Configuration" menu, click on "User Options."

3. The "User Options" window opens.

A screenshot of the 'User Options' window. It has a title bar with a user icon and the text 'User Options'. Below the title bar is a table with four rows: 'Username' with the value 'admin', 'Old Password', 'New Password', and 'Confirm Password'. Each row has a text input field. At the bottom left of the window is a 'Save' button with a floppy disk icon.

4. You can define the following options:

- Username - To change your Username, enter a new one instead of the current one.
- Password - To change your password, do the following:
 1. Type your current password in the "Old Password" field.
 2. Type the new password in the "New Password" field.
 3. Type the new password one more time in the "Confirm Password" field.

5. Click on "Save."
