

Configuring User Options

Follow the instructions below to change your Username or Password in CDP Standard Edition.

1. Click on "Configuration" in the Main Menu to open the "Configuration" window.

2. In the "Configuration" menu, click on "User Options."

3. The "User Options" window opens.

The User Options configuration window is shown. It has a title bar "User Options" with a person icon. There are four input fields: "Username" (containing "admin"), "Old Password" (empty), "New Password" (empty), and "Confirm Password" (empty). At the bottom left is a "Save" button with a disk icon.

User Options	
Username	admin
Old Password	
New Password	
Confirm Password	

Save

4. You can define the following options:

- Username - To change your Username, enter a new one instead of the current one.
- Password - To change your password, do the following:
 1. Type your current password in the "Old Password" field.
 2. Type the new password in the "New Password" field.
 3. Type the new password one more time in the "Confirm Password" field.

5. Click on "Save."
