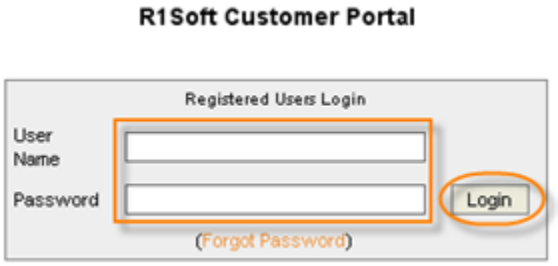
Obtaining Windows CDP Advanced Edition

To download the Windows CDP Server software, perform the following steps:

1. The software for Windows CDP Server 3.18.2 can be obtained via direct download from the R1Soft website at https://dist.r1soft.com/download/.

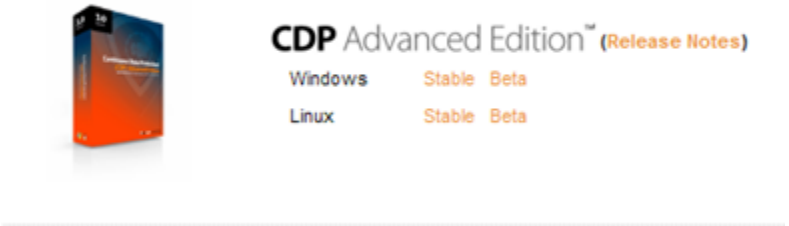
2. Log in to the R1Soft Customer Portal by entering your User Name and Password in the form on the right-hand of the screen. Registration is required for all downloads.



> **Note**
> Existing customers can use their R1Soft Customer Portal Login. The forum and tech support help desks have different logins. New customers can request a free trial download at http://www.r1soft.com/nc/company/download-cdp-advanced-edition-trial/ .

3. Click on the "Download CDP Products" link.

4. Locate the "CDP Advanced Edition" product group.



5. Click on the "Stable" link for the Windows product to download its stable release.

6. On the "Downloads" page, select the most recent version. The version number is displayed in the "Version" column. The release date is displayed in the "Date" column. The most recent versions are displayed at the top of the list.

> **Note**
> You can view the release notes here: Release Notes.

7. To download, click on the "Windows 32-bit (x86)" link for 32-bit binary Hardware/OS. Click on the "Windows 64-bit (x86_64/AMD64)" link for 64-bit binary Hardware/OS.
