

Obtaining PXE Network Boot Server

Follow the instructions below to download the appropriate software to perform a Bare-Metal Restore.

To download the PXE Network Boot Server, perform the following steps:

1. The PXE Network Boot Server can be obtained via direct download from the R1Soft website at <http://download.r1soft.com>.

The screenshot shows the R1Soft website header with the logo and navigation menu. The navigation menu includes: Home, Products, Support, Downloads, Buy, R1HPP, Contact, Company, Forum, Customer Login, and Shopping Cart. A live chat button is visible in the top right corner.

Below the navigation menu, a banner states: "Registration is required for all downloads."

The main content area is divided into two sections:

- Download Trial:** Registration is required for all downloads. You will also need a license to use the software. To get a free trial license and access to downloads:
 - Click on one of the links below
 - Fill out the registration form
 - An email will be sent to your registered email address containing links to your download and trial license
 Two buttons are provided: "Free Trial for Linux" (orange) and "Free Trial for Windows" (blue).
- R1Soft Customer Portal:** Registered Users Login. This section contains a form with fields for "User Name" and "Password", a "Login" button, and a "(Forgot Password)" link.

2. Log in to the server by entering your "User Name" and "Password" in the form on the right-hand side of the screen. Registration is required for all downloads.

The screenshot shows the "R1Soft Customer Portal" login form. The form is titled "Registered Users Login" and includes the following elements:

- A link: "New Users Register Here"
- Fields for "User Name" and "Password", both of which are circled in orange.
- A "Login" button, also circled in orange.
- A "(Forgot Password)" link below the password field.

**Note**

Existing customers can use their R1Soft Customer Portal Login. The forum and tech support help desks have different logins.

New customers can register and download the trial solutions at

<http://download.r1soft.com> by clicking the "Free Trial for Linux" or "Free Trial for Windows" link. New customers can request a quote here:

<http://www.r1soft.com/index.php?id=360>.

3. Click the "Download CDP Products" button to sort the list of product versions.

4. Click the "Stable" link corresponding to "PXE Network Boot Server" in the "Disaster Recovery Boot Media" section.

5. When the "Stable Release Downloads" page has loaded, you will see a three-column "Live CD Downloads" table containing the following information:

- Version - The version of the latest Live CD Downloads
- Date - Release date
- Download - The link to download the Image you want to use to perform a Bare-Metal Restore

**Note**

You can view the release notes here: [Release Notes](#).

Stable Release Downloads

Live CD Downloads

Version:	Date:	Download:
