Linux Agent CLI - Stopping The Agent

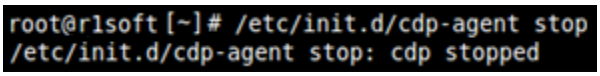
To stop the running CDP Agent, follow the instructions below.

1. Run the #cdp-agent command using the stop option:

```
# /etc/init.d/cdp-agent stop
```

Return:

```
/etc/init.d/cdp-agent stop: cdp stopped
```



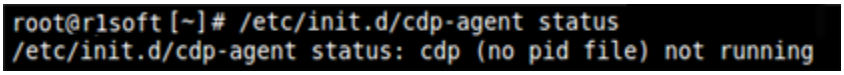
2. Verify the Agent's status using the status option of the same command:

```
# /etc/init.d/cdp-agent status
```

Return:

You should now receive a message that the Agent is not running.

```
/etc/init.d/cdp-agent status: cdp (no pid file) not running
```



For more information about the #cdp-agent command and its options see cdp-agent.
