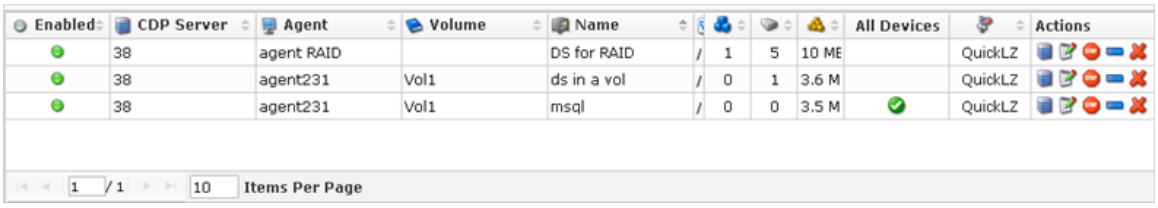
Editing Disk Safes in Data Center Console

It is possible to edit Disk Safes on CDP servers using the Data Center Console. Follow the instructions below.

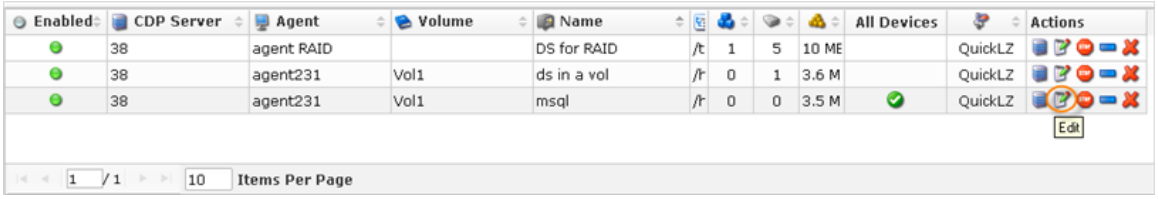
1. Select Disk Safes from the Main Menu.

You will enter the "Disk Safes" screen.

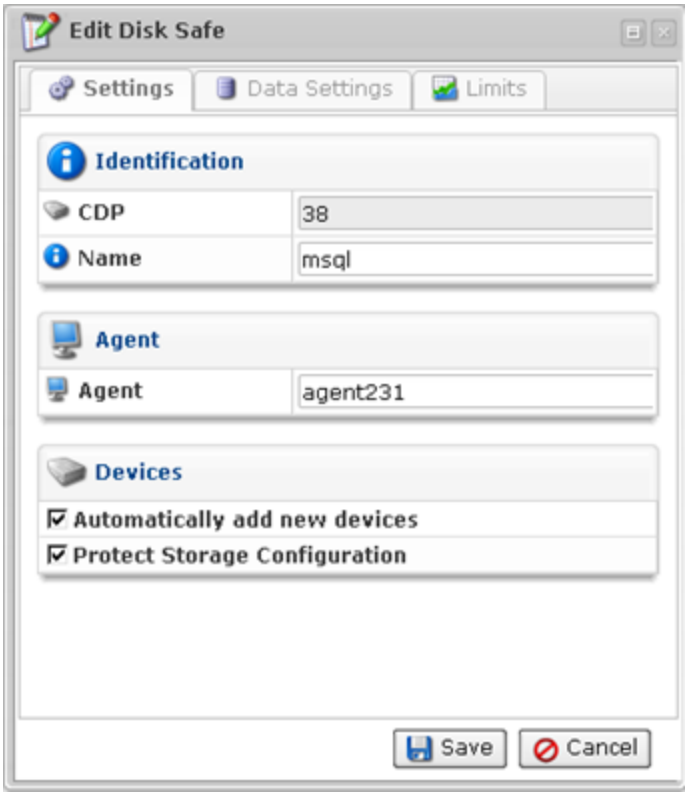


The list of all Disk Safes from all connected CDP Servers is displayed.

2. Select the Disk Safe you want to edit and click the "Edit" icon.



3. The "Edit Disk Safe" window will open.



You can edit the following tabs:

- Settings
- Data Settings
- Limits

See Creating Disk Safes in Data Center Console for the information about every tab.

4. Once the changes are complete, click "Save."
