

Editing Agents in Data Center Console

It is possible to edit Agents on CDP servers using the Data Center Console. Follow the instructions below.

1. Select Agents from the Main Menu.

You will enter the "Agents" screen.

Name	CDP Server	Hostname	Port Number	OS Type	Add-ons	Actions
agent RAID	38	10.230.200.62	1167			
agent231	38	10.230.200.231	1167			
localhost	38	192.168.1.5	1167			

Navigation: 1 / 1, 10 Items Per Page

The list of all Agents from all connected CDP Servers is displayed.

2. Select the Agent you want to edit and click the "Edit" icon.

Name	CDP Server	Hostname	Port Number	OS Type	Add-ons	Actions
agent RAID	38	10.230.200.62	1167			
agent231	38	10.230.200.231	1167			
localhost	38	192.168.1.5	1167			

Navigation: 1 / 1, 10 Items Per Page

An orange circle highlights the "Edit" icon in the Actions column for the "agent231" row. A small "Edit" button is visible below the table.

3. The "Edit Agent" window will open.

Edit Agent

Settings Groups Users

Identification

CDP	38
Name	localhost
Hostname	192.168.1.5
Port Number	1167

Add-ons

Enable MySQL database Add-on

Owner

Permissions

Full Control

Save Cancel

You can edit the following tabs:

- Settings
- Groups
- Users

See [Creating Agents in Data Center Console](#) for the information about every tab.

4. Once the changes are complete, click "Save."

The screenshot shows the 'Edit Agent' window with three tabs: 'Settings', 'Groups', and 'Users'. The 'Settings' tab is active and contains the following sections:

- Identification:** A table with four rows: CDP (38), Name (localhost), Hostname (192.168.1.5), and Port Number (1167).
- Add-ons:** A section with a checkbox for 'Enable MySQL database Add-on' which is currently unchecked.
- Owner:** A section with a dropdown menu for 'Owner' and a 'Permissions' section containing a 'Full Control' checkbox and a row of ten smaller checkboxes, all of which are currently unchecked.

At the bottom right of the window, there are two buttons: 'Save' and 'Cancel'. The 'Save' button is circled in orange.
