

Problem encountered when a Disk Safe is on a Device that is completely full (0 bytes available)

Problem encountered when a Disk Safe is on a Device that is completely full (0 bytes available)

Symptom

User encounters the following error on CDP Server startup or while viewing the CDP Server web GUI.

JDBCConnectionException: Cannot open connection

Error encountered in SERVER.LOG or Web GUI:

javax.persistence.PersistenceException: org.hibernate.exception.JDBCConnectionException: Cannot open connection
Caused by: org.hibernate.exception.JDBCConnectionException: Cannot open connection
Caused by: java.sql.SQLNonTransientConnectionException: No current connection.
Caused by: java.sql.SQLException: No current connection.

Confirm in MONITOR.LOG:

0000-00-00 00:00:00,000 ERROR - Page Page(?,Container(?, ?)) could not be written to disk, please check if the disk is full, or if a file system limit, st
0000-00-00 00:00:00,000 ERROR - Java exception: 'No space left on device: java.io.IOException'.
0000-00-00 00:00:00,000 ERROR - could not complete schema update
0000-00-00 00:00:00,000 ERROR - No current connection.

Stack Trace:

org.hibernate.exception.GenericJDBCException: could not get table metadata: ?
Caused by: java.sql.SQLException: Page Page(?,Container(?, ?)) could not be written to disk, please check if the disk is full, or if a file system limit, st
Caused by: java.sql.SQLException: Java exception: 'No space left on device: java.io.IOException'.
Caused by: java.io.IOException: No space left on device

Cause

There is no free space to write data.

Resolution

Free up disk space on the Device or move the Disk Safe to a Device that has ample free space.
