

Logging in to CDP Data Center Console

Follow the instructions below to log in to the CDP server.

1. Connect to the CDP Data Center Console Web Interface.

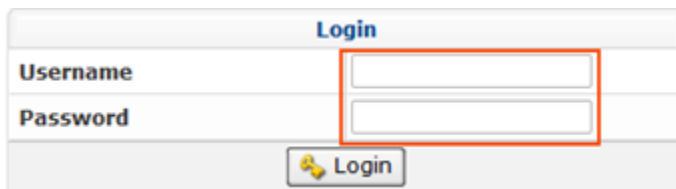

For detailed instructions on how to do this, refer to the following page: [Accessing Console Web Interface](#).

2. Once you have established a connection to the CDP Data Center Console Web Interface, you will be prompted for a Username and Password.

The screenshot shows the 'Continuous Data Protection® - Data Center Console' window. It features a 'Login' form with two input fields: 'Username' and 'Password'. Below the fields is a 'Login' button with a key icon. At the bottom of the form, there is a copyright notice: '© Copyright 2006-2012 Idera Inc.'.

3. Enter your Username and Password in the corresponding fields.

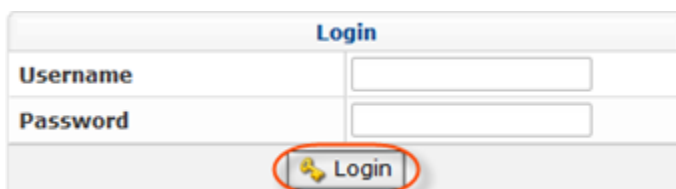

This close-up view of the login form shows the 'Username' and 'Password' input fields. A red rectangle highlights these two fields, indicating where the user should enter their credentials.

Note

Later, you can change these credentials or create new Console users. See [Creating Data Center Console Users](#).

4. Click the "Login" button.

This close-up view of the login form shows the 'Login' button, which is highlighted by a red circle. The button features a key icon and the text 'Login'.
