Deleting Agents

When you delete a CDP Agent from the CDP Server, this also deletes all of the Host's Disk Safes. Follow the instructions below to delete an Agent in your CDP Enterprise Edition.

Deleting an Agent will prevent any tasks associated with it from running, and you will have to reassociate Disk Safes with another Agent before backups can continue.

> **Notice**
> If an Agent has associated Policies, it cannot be removed.

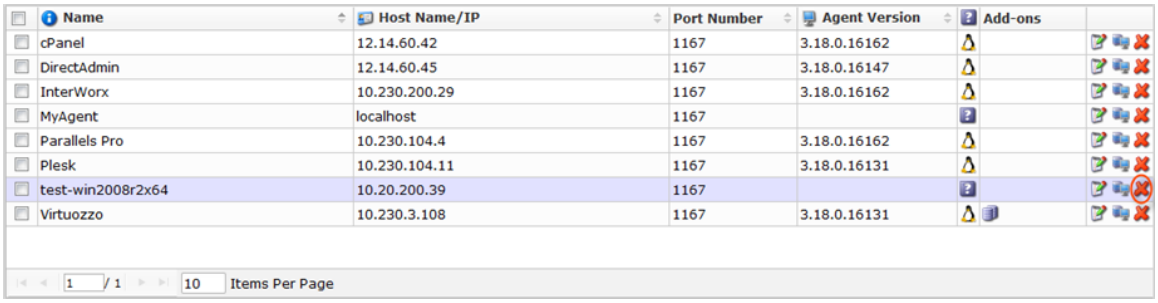

1. Click on "Agents" in the Main Menu to access the "Agents" page.

2. The "Agents" page will list all existing CDP Agents.

> **Tip**
> To find an Agent, you can use the Basic and Advanced List Filters. See Customizing the Agents List.

To delete the existing Agent from the CDP Server, click on the "Delete" icon under "Actions" for the corresponding Agent in the list.

Name	Host Name/IP	Port Number	Agent Version	Add-ons
cPanel	12.14.60.42	1167	3.18.0.16162	
DirectAdmin	12.14.60.45	1167	3.18.0.16147	
InterWorx	10.230.200.29	1167	3.18.0.16162	
MyAgent	localhost	1167		
Parallels Pro	10.230.104.4	1167	3.18.0.16162	
Plesk	10.230.104.11	1167	3.18.0.16131	
test-win2008r2x64	10.20.200.39	1167		
Virtuozzo	10.230.3.108	1167	3.18.0.16131
