Linux Agent CLI - Restarting The Agent

To stop and then immediately start the Agent again, follow the instructions below.

Run the #cdp-agent command with the restart option:

```
# /etc/init.d/cdp-agent restart
```

> **Note**
> If the CDP Agent is not running, the command starts it.

Return:

```
/etc/init.d/cdp-agent stop: cdp stopped
/etc/init.d/cdp-agent start: cdp started
```

For more information about the #cdp-agent command and its options see cdp-agent.
