API - Run and Re-Run Policy Tasks

Product Improvement

The ability to run Policies and re-run tasks from Task History has been added to the CDP Server SOAP API.

The following methods have been added:

com.r1soft.backup.server.apiV2.policy.PolicyService.runPolicy(...)

com.r1soft.backup.server.apiV2.policy.PolicyService.runPolicyByID(...)

com.r1soft.backup.server.api.taskhistory.TaskHistoryService.runTaskByTaskExecutionContextID(...)

See the API documentation on your CDP Server for additional details.
