Solved Issue with Stopping CDP Server Service

Symptom

1. Log in to CDP Server.
2. Execute the `service cdp-server stop` command.
3. Go to `/usr/sbin/r1soft/log/server.log`.
4. Verify that these MQ error messages are displayed:

```
2011-11-29 09:34:29,551 ERROR - Setup of JMS message listener invoker failed - trying to recover
org.springframework.transaction.TransactionSystemException: Could not commit JMS transaction; nested exception is javax.jms.IllegalStateExcept
Caused by: javax.jms.IllegalStateException: The Session is closed
    at org.apache.activemq.ActiveMQSession.checkClosed(ActiveMQSession.java:722)
    at org.apache.activemq.ActiveMQSession.commit(ActiveMQSession.java:553)
    at org.springframework.jms.connection.JmsTransactionManager.doCommit(JmsTransactionManager.java:226)
    at org.springframework.transaction.support.AbstractPlatformTransactionManager.processCommit(AbstractPlatformTransactionManager.java
    at org.springframework.transaction.support.AbstractPlatformTransactionManager.commit(AbstractPlatformTransactionManager.java:632)
    at org.springframework.jms.listener.AbstractPollingMessageListenerContainer.receiveAndExecute(AbstractPollingMessageListenerContainer.j
    at org.springframework.jms.listener.DefaultMessageListenerContainer$AsyncMessageListenerInvoker.invokeListener(DefaultMessageListenerC
    at org.springframework.jms.listener.DefaultMessageListenerContainer$AsyncMessageListenerInvoker.run(DefaultMessageListenerContainer.ja
    at java.lang.Thread.run(Unknown Source)
```

Resolution

The issue has been corrected in CDP 4.0.0.
