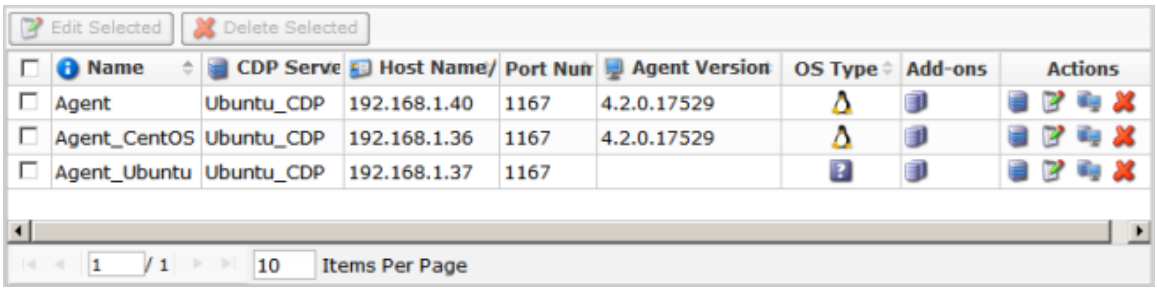
Resetting Public Key in Data Center Console

This is a new feature available in the 4.2.0 version.

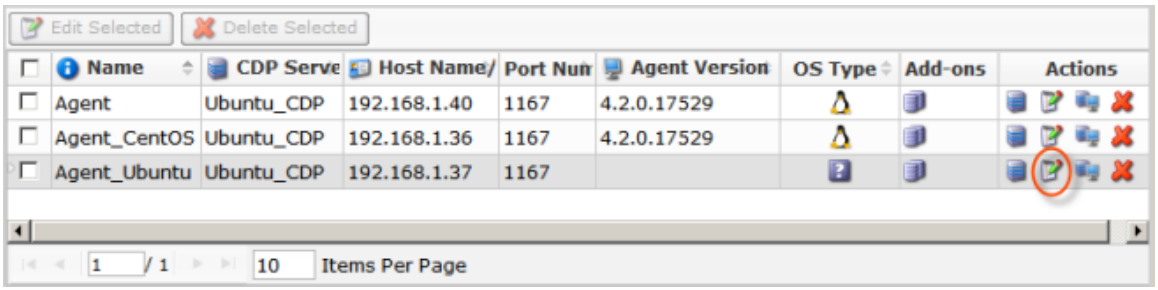
It is possible to reset a Public Key for an Agent using the Data Center Console. Follow the instructions below.

1. Select "Agents" from the Main Menu.

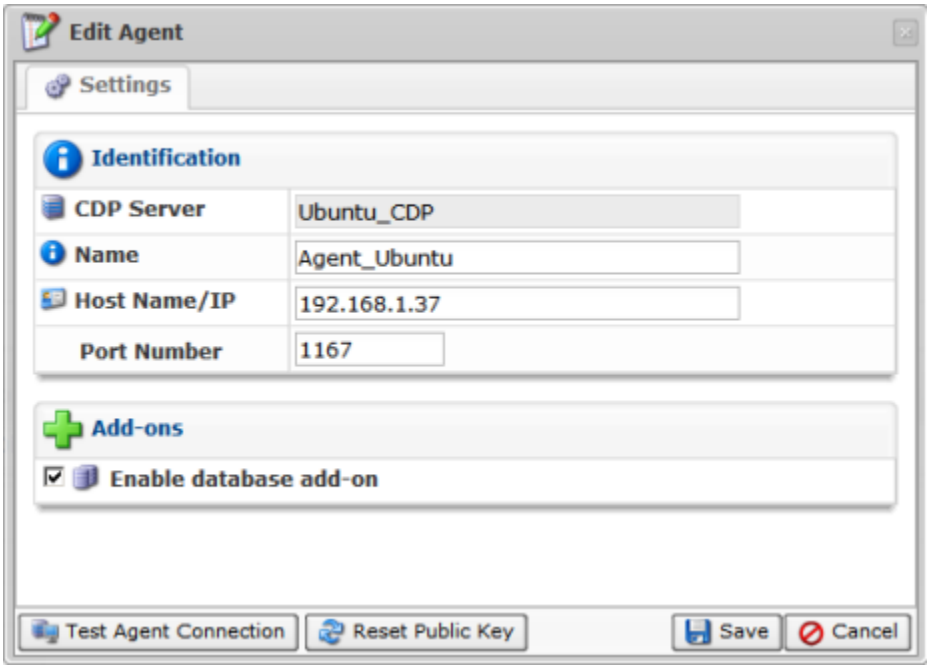
You will enter the "Agents" screen where all Agents from all connected CDP Servers are displayed.



2. Select an Agent you want to reset a Public Key for, and click the "Edit" icon.

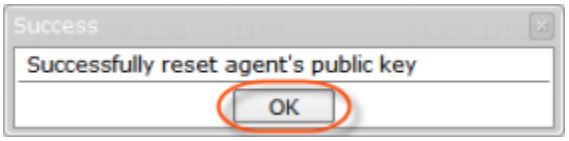


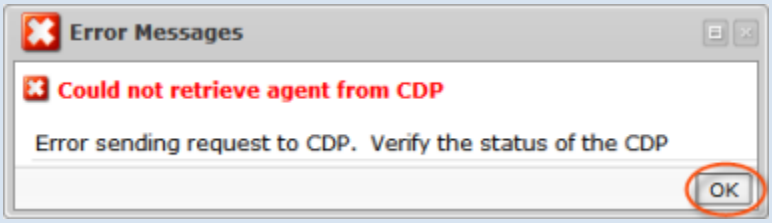
3. The "Edit Agent" window will open.



4. Click on the "Reset Public Key" button.

5. A success message like the following will appear. Click the "OK" button.





Note
In some cases, there may be any issues with your connection. Find a solution, and repeat the procedure again.
