Shipping 64-bit Agent Utilities

Symptom

64-bit utilities, e.g., LVM, must be shipped with the 64-bit Agent.

Resolution

The issue has been corrected in CDP 4.2.0. 64-bit utilities, e.g., LVM, are now shipped with the 64-bit Agent (`lvm.static` is now the 64-bit version). Therefore, users can now run a purely 64-bit environment.
