

## CDP 3 Licensing API Example - getLicense

This example provides you code snippets for RPC calls for getting licenses.

```
#### For getting licenses
#### Make RPC Call Start ####

$xmlrpc_msg = new xmlrpcmsg('licensing.getLicense', array(
    new xmlrpcval($licPool, 'string')
));
$reply = $client->send($xmlrpc_msg);
#### Make RPC Call End ####
```

### Output

```
Array
(
    [Enabled] => 1
    [CDP 3 Generic Agents Available] => 3
    [CDP 3 MySql Backups Capacity] => 13
    [unknown Available] => 0
    [ID] => xxxxxxxx-xxxx-xxxx-xxxx-xxxxxxxxxxxxxx
    [CDP 3 MySql Backups Available] => 5
    [unknown Capacity] => 0
    [CDP 3 Generic Agents Capacity] => 13
)
```
