

CDP 3 Licensing API Example - deletePooledLicense

This example provides you a code snippet for RPC calls for deleting licenses.

```
#### For Deleting pooled licenses
#### Make RPC Call Start ####

$xmlrpc_msg = new xmlrpcmsg('licensing.deletePooledLicense ',
array(
    new xmlrpcval($licPool, 'string'),
        new xmlrpcval($licenseID, 'string')
));
$reply = $client->send($xmlrpc_msg);
#### Make RPC Call End ####
```
